The travel experience has two parts:

First you do and then you tell. But, imagine being able to do and tell at the same time! To share your experiences with family and friends as you go!

Create your own travel website with just a few clicks:

- plot your journey on maps you choose with the MyTripJournal IntelliMap System
- store & display your photos, stories and experiences
- control who views your personal travel website
- preserve your memories in a free HTML download, printed memory album, or CD

Your Website could look something like this one...

Map Editor - 'Greece'

 default map

Select cities to be displayed on your 'Greece' map:

 Refresh Map

To select a city, tick the checkbox next to the city's name below. Use the pop-up menus below to adjust the position of the city's name (relative to the dot). This may be helpful if cities are close to each other and text overlaps. When you are finished labeling your map, remember to click the 'Save Changes' button below.

FIG. 8

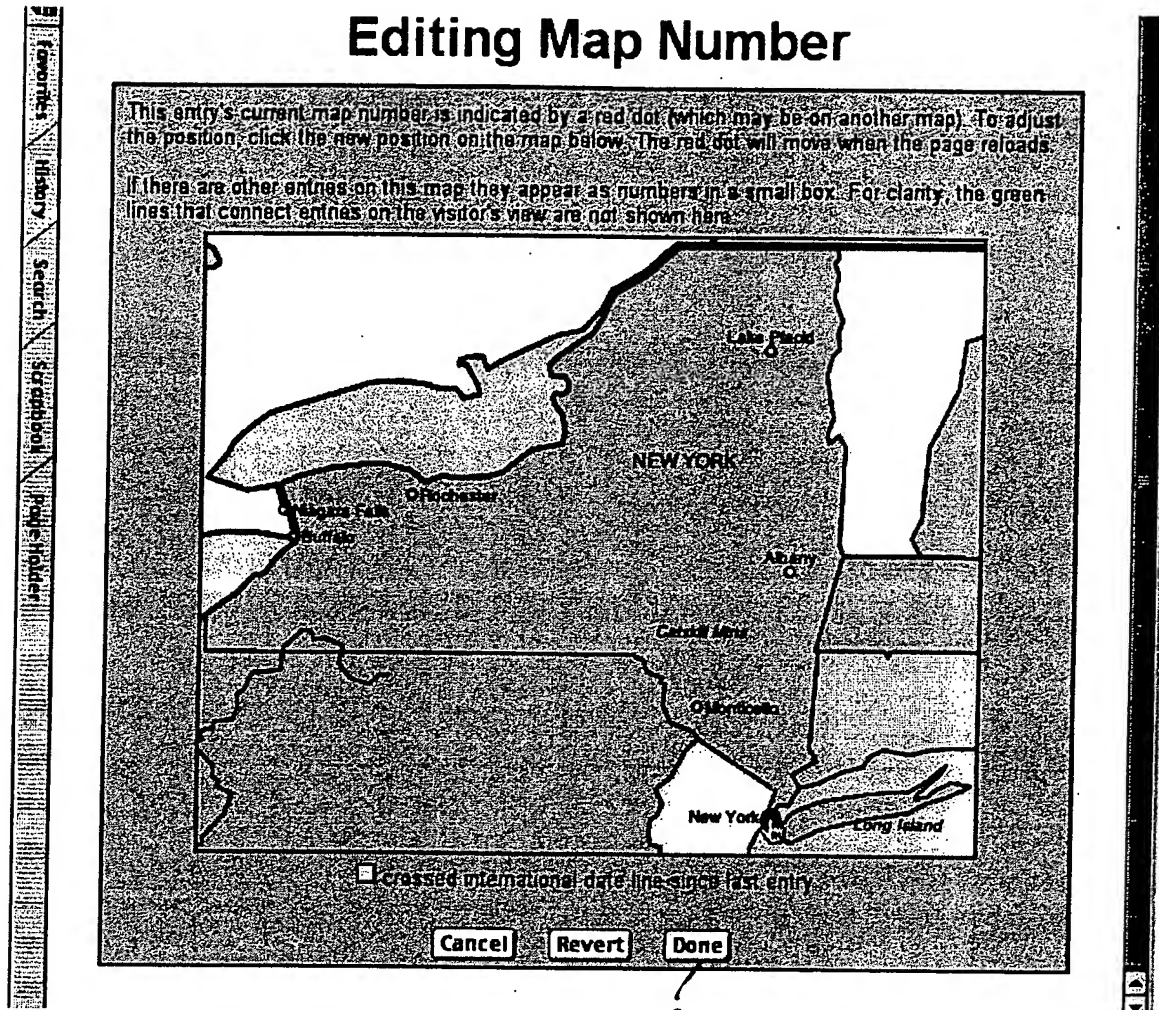

The surface of the world is mapped to a grid 64,000 units wide by 38,088 units tall.

The smaller rectangle represents an individual map stored as a GIF image together with coordinates X and Y and scale of a certain number of units on the X and Y axes.

The 0,0 point is the prime meridian and the equator.

My European Adventure

Hi and welcome to My European Adventure. I hope you enjoy traveling along with me as I make my way across Europe and throughout the Greek islands. Check out my itinerary page to see where I am planning to be. If you want to be advised automatically when I have posted a new entry, please email me and I will add you to my auto-email notification list.

Santorini

Aug 2, 2003

Classic Santorini

Donkeys for hire

Hang on tight!

[2 more...](#)

Figure 12

When the boat arrived in Santorini harbour, I was overwhelmed by the reception of both humans and animals! The donkeys descended thick and fast down some of the steepest terrain I have ever seen, rushing to meet the ferry and haul the load of tourists up the steep steps to the town perched on the rocks above.

Santorini is a submerged volcano that erupted eons ago, leaving a caldera behind. It's steep rock faces are covered with whitewashed villas clinging to the rock face like vines on a brick wall.

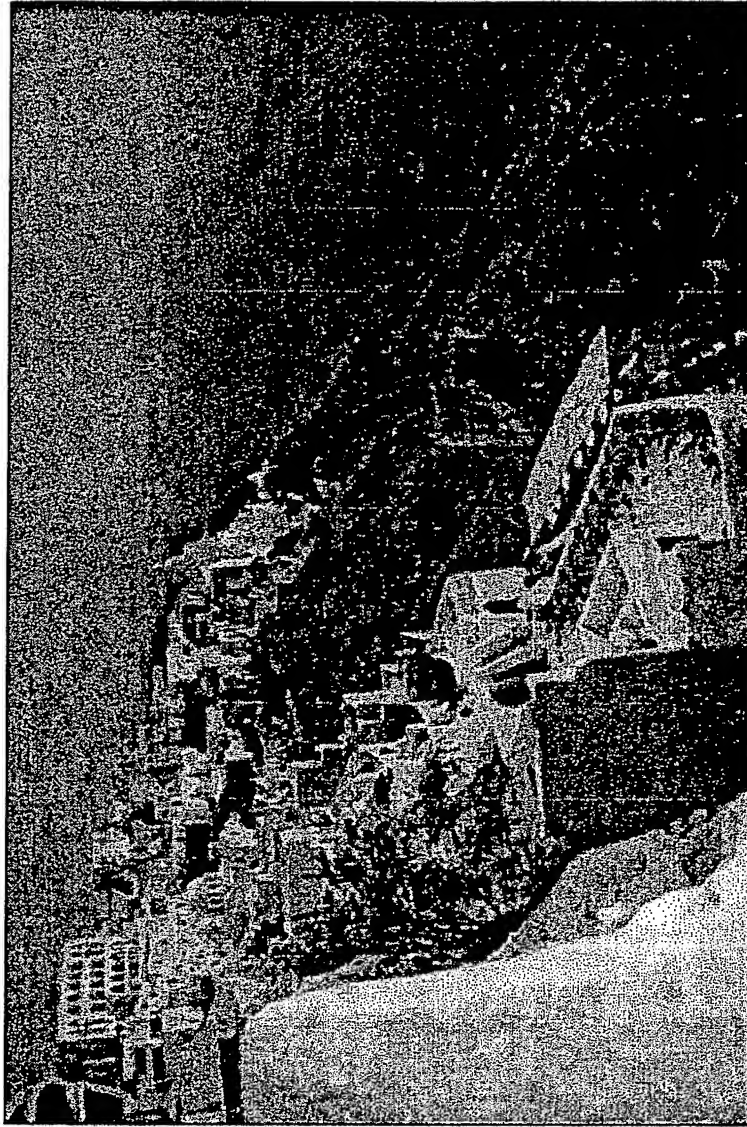

There is a tradition in Santorini of saluting the sunset by populating one of the many bars prior to sundown and then sitting in silent adoration as the amazing sunset unfolds. It is a sight unlike any other. After it's over, the bars explode with life as the patrons eat, drink and party into the wee hours of the morning.

Santorini doesn't have the beautiful sandy beaches of some of the other islands, and despite the disapproval of the locals, many of the rock beaches have become de facto nudist beaches. It takes awhile to find them, however, as the sun worshippers have isolated themselves somewhat, maybe in self-defense, maybe in search of some privacy. Some reasonably good retsina wine is made on the island, although given the amount of arable land there is versus volcanic rock, it's hard to believe that they can actually grow enough grapes!

It's been a fabulous trip and I'm not really ready to go home, but go I must. I know I'll be back some day, there is just no doubt about it!

Classic Santorini Jul 3, 2003

Figure 13

Itinerary

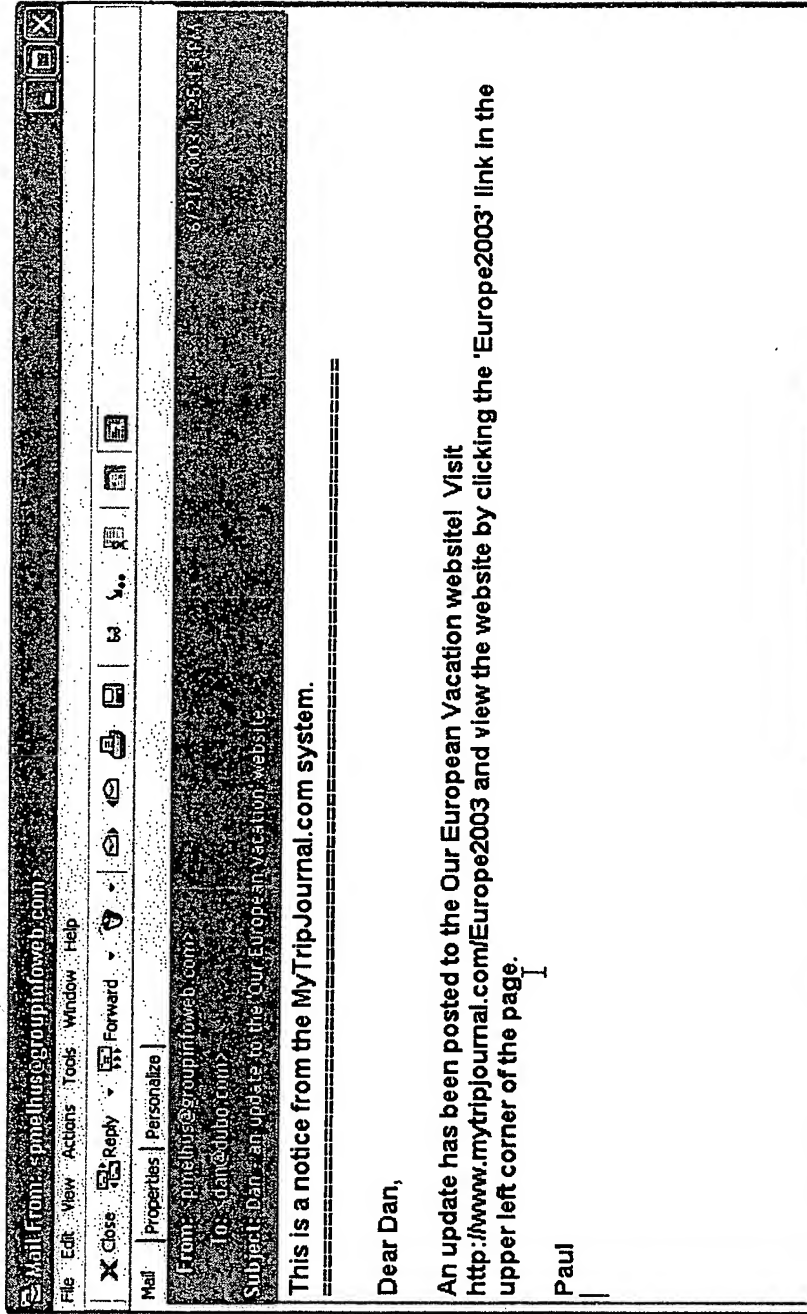

I haven't quite finalized my dates yet, but my plans are to go more or less in the following order to:

Fly to Madrid
Train through Spain, southern France and northern Italy to Milan
Few days in Florence
Vienna and Budapest (I'm not sure which I'll get to first)
Athens
Several of the Greek islands in the south Aegean Sea
I'll update my itinerary periodically!
